This is a sample file

Title	URL
Copy Data from SSAS/AAS through Azure Data Factory	http://datasharkx.wordpress.com/2021/03/16/copy-data-from-ssas-aas-through-azure-data-factory/
Error Logging and the Art of Avoiding Redundant Activities in Azure Data Factory	http://datasharkx.wordpress.com/2021/08/19/error-logging-and-the-art-of-avoiding-redundant-activities-in-azure-data-factory/
Automated Deployment of Azure SQL Database/ Azure SQL Data warehouse through Azure Devops via Service Principal - Part 1	http://datasharkx.wordpress.com/2021/03/11/automated-deployment-of-azure-sql-database-azure-sql-data-warehouse-through-azure-devops-via-service-principal-part-1/
Automated Deployment of Azure SQL Database/ Azure SQL Data warehouse through Azure Devops via Service Principal - Part 2	http://datasharkx.wordpress.com/2021/03/12/automated-deployment-of-azure-sql-database-azure-sql-data-warehouse-through-azure-devops-via-service-principal-part-2/
Security Access to Trigger a specific Pipeline in Azure Data Factory	http://datasharkx.wordpress.com/2021/07/26/security-access-to-trigger-a-specific-pipeline-in-azure-data-factory/
Copy Data from Power BI through Azure Data Factory / Synapse Pipeline via Managed Identity Authentication- Part 4	http://datasharkx.wordpress.com/2022/11/03/copy-data-from-power-bi-through-azure-data-factory-synapse-pipeline-via-managed-identity-authentication-part-4/
Refresh SSAS Tabular Model from Azure Data Factory	http://datasharkx.wordpress.com/2021/03/15/refresh-ssas-tabular-model-from-azure-data-factory/
Copy Data from Power BI through Azure Data Factory / Synapse Pipeline - Part 1	http://datasharkx.wordpress.com/2022/10/30/copy-data-from-power-bi-through-azure-data-factory-synapse-pipeline-part-1/
Inviting Guest User Accounts with no Mail Enabled to an Azure Active Directory	http://datasharkx.wordpress.com/2021/05/13/inviting-guest-user-accounts-with-no-mail-enabled-to-an-azure-active-directory/
Overcoming Data Size / Row Limitations of Power BI REST API for Automated	http://datasharkx.wordpress.com/2023/03/02/overcoming-data-size-row-limitations-of-power-bi-rest-

Data Extraction from Dataset	api-for-automated-data-extraction-from-dataset/
Home	http://datasharkx.wordpress.com/816-2/
Iterating across all Excel Sheets dynamically and Converting into CSV files via Azure Data factory / Synapse Pipeline	http://datasharkx.wordpress.com/2022/08/31/iterating-across-all-excel-sheets-dynamically-and-converting-into-csv-files-via-azure-data-factory-synapse-pipeline/
Copy Data from Power BI through Azure Data Factory / Synapse Pipeline - Part 3	http://datasharkx.wordpress.com/2022/10/31/copy-data-from-power-bi-through-azure-data-factory-synapse-pipeline-part-3/
Copy Data from Power BI through Azure Data Factory / Synapse Pipeline - Part 2	http://datasharkx.wordpress.com/2022/10/30/copy-data-from-power-bi-through-azure-data-factory-synapse-pipeline-part-2/
Calculate Folder Size of an Azure Blob Storage / Data Lake Storage via Synapse / Data Factory Pipeline	http://datasharkx.wordpress.com/2023/02/06/calculate-folder-size-of-an-azure-blob-storage-data-lake-storage-via-synapse-data-factory-pipeline/
Identifying the Count of Activities within a Pipeline in an Azure Data Factory	http://datasharkx.wordpress.com/2021/08/17/identifying-the-count-of-activities-within-a-pipeline-in-an-azure-data-factory/
Refresh Power BI Dataflow / Dataset from Azure Data Factory / Synapse Pipeline via Managed Identity	http://datasharkx.wordpress.com/2022/11/05/refresh-power-bi-dataflow-dataset-from-azure-data-factory-synapse-pipeline-via-managed-identity/
Home page / Archives	http://datasharkx.wordpress.com/
Automated Deployment of SQL Server Database through Azure Devops	http://datasharkx.wordpress.com/2021/05/28/automated-deployment-of-sql-server-database-through-azure-devops/
Event Trigger of Synapse / Azure Data factory Pipeline on Arrival of N'th File in Azure Blob Storage	http://datasharkx.wordpress.com/2022/09/24/event-trigger-of-synapse-azure-data-factory-pipeline-on-arrival-of-nth-file-in-azure-blob-storage/
Event Trigger Azure Data Factory / Synapse Pipeline via Azure SQL Database	http://datasharkx.wordpress.com/2022/12/02/event-trigger-azure-data-factory-synapse-pipeline-via-azure-sql-database/
Automated Deployment of Master Data Service (MDS) through Azure Devops	http://datasharkx.wordpress.com/2021/03/18/automated-deployment-of-master-data-service-mds-through-azure-devops/
Sort an Array in Azure Data Factory / Synapse Pipeline via Regular Expressions	http://datasharkx.wordpress.com/2023/02/25/sort-an-array-in-azure-data-factory-synapse-pipeline-via-regular-expressions/
Extract Data from Power BI through Azure Data Factory / Synapse Pipeline via T-SQL From Azure SQL Database	http://datasharkx.wordpress.com/2022/12/03/extract-data-from-power-bi-through-azure-data-factory-synapse-pipeline-via-t-sql-from-azure-sql-database/
Trigger Azure DevOps Build Pipeline via Azure Data Factory / Synapse Pipeline	http://datasharkx.wordpress.com/2023/01/17/trigger-azure-devops-build-pipeline-via-azure-data-factory-synapse-pipeline/
Overcoming Limitations of Get Metadata Activity in Azure Synapse / Data Factory	http://datasharkx.wordpress.com/2023/01/21/overcoming-limitations-of-get-metadata-activity-in-azure-synapse-data-factory/
Implementing ROUND, FLOOR and CEILING Function in Data Factory / Synapse via Pipeline Expressions	http://datasharkx.wordpress.com/2023/03/13/implementing-round-floor-and-ceiling-function-in-data-factory-synapse-via-pipeline-expressions/
Automated Way to get the ID of User Manually Triggering the Azure Data	http://datasharkx.wordpress.com/2023/05/18/automated-way-to-get-the-id-of-user-manually-triggering-

Factory Pipeline	the-azure-data-factory-pipeline/
Iterating across all Excel Sheets Dynamically and Converting into CSV files via Azure Data factory / Synapse Pipeline Parallely	http://datasharkx.wordpress.com/2022/09/04/iterating-across-all-excel-sheets-dynamically-and-converting-into-csv-files-via-azure-data-factory-synapse-pipeline-parallely/
Merge/ Append/ Reference Operations on Power BI Dataflow on Non-Premium workspaces	http://datasharkx.wordpress.com/2021/08/31/merge-append-reference-operations-on-power-bi-dataflow-on-non-premium-workspaces/
Event Trigger Data Sync from SQL Server to Synapse via Azure Data Factory / Synapse Pipeline	http://datasharkx.wordpress.com/2022/10/01/event-trigger-data-sync-from-sql-server-to-synapse-via-azure-data-factory-synapse-pipeline/
Refresh Power BI Dataflow / Dataset from Azure Data Factory / Synapse Pipeline via Service Principal - Part 2	http://datasharkx.wordpress.com/2022/11/07/refresh-power-bi-dataflow-dataset-from-azure-data-factory-synapse-pipeline-via-service-principal-part-2/
Column separator on table visual/ matrix visual	http://datasharkx.wordpress.com/2021/03/28/column-separator-on-table-visual-matrix-visual/
Creating One's Personal Power BI Sandbox Environment for Free Access to all Power BI Service Features (Including Admin Portal)	http://datasharkx.wordpress.com/2022/03/05/creating-ones-power-bi-sandbox-environment-for-free-access-to-all-power-bi-service-features-including-admin-portal/
Auto Cancel Long Running Pipelines within Synapse / Azure Data Factory	http://datasharkx.wordpress.com/2023/09/21/auto-cancel-long-running-pipelines-within-synapse-azure-data-factory/
Automated Way to Extract Data from Power BI Dataflow via MSFT Fabric	http://datasharkx.wordpress.com/2023/11/02/automated-way-to-extract-data-from-power-bi-dataflow-via-msft-fabric/
Event Trigger Power BI Dataset / Dataflow Refresh via Azure SQL Database	http://datasharkx.wordpress.com/2022/11/29/event-trigger-power-bi-dataset-dataflow-refresh-via-azure-sql-database/
Refresh Power BI Dataflow / Dataset from Azure Data Factory / Synapse Pipeline via Service Principal (AAD Token Generation)- Part 1	http://datasharkx.wordpress.com/2022/11/07/refresh-power-bi-dataflow-dataset-from-azure-data-factory-synapse-pipeline-via-service-principal-aad-token-generation-part-1/
Creating One's Personal Active Directory and Switching Azure Subscription to the new directory	http://datasharkx.wordpress.com/2021/05/11/creating-ones-personal-active-directory-and-switching-azure-subscription-to-the-new-directory/
Avoidance of Infinite Iterations of Until activity within Azure Data Factory / Synapse Pipelines	http://datasharkx.wordpress.com/2022/08/30/avoidance-of-infinite-iterations-of-until-activity-within-azure-data-factory-synapse-pipelines/
(unknown or deleted)	http://datasharkx.wordpress.com/?p=3
Granting Admin Access on a Schema in Azure Database / Synapse Dedicated Pool to an Azure AD Group	http://datasharkx.wordpress.com/2022/07/23/granting-admin-access-on-a-schema-in-azure-database-synapse-dedicated-pool-to-an-azure-ad-group/
Trigger Synapse / Azure Data factory Pipeline via SQL Server on Events within the Database	http://datasharkx.wordpress.com/2023/05/04/trigger-synapse-azure-data-factory-pipeline-via-sql-server-on-events-within-the-database/
Copy a Dataflow from workspace to workspace	http://datasharkx.wordpress.com/2021/03/28/copy-a-dataflow-from-workspace-to-workspace/
Automated Way to Identify the Dependencies on a Linked Service in an Azure Data Factory	http://datasharkx.wordpress.com/2022/12/17/automated-way-to-identify-the-dependencies-on-a-linked-service-in-an-azure-data-factory/

Get Latest Folder / File Detail from Azure Data Lake Storage via Synapse / Azure Data Factory Pipeline	http://datasharkx.wordpress.com/2023/01/05/get-latest-folder-file-detail-from-azure-data-lake-storage-via-synapse-azure-data-factory-pipeline/
Swapping Two Array Elements in Azure Data Factory / Synapse Pipeline via Regular Expressions	http://datasharkx.wordpress.com/2023/02/24/swapping-two-array-elements-in-azure-data-factory-synapse-pipeline-via-regular-expressions/
Copying Variable / Parameter into Sink (Azure Blob Storage, Azure Database etc.) via Data Factory / Synapse Pipeline	http://datasharkx.wordpress.com/2023/04/20/copying-variable-parameter-into-sink-azure-blob-storage-azure-database-etc-via-data-factory-synapse-pipeline/
Copy Data from Azure Analysis Service (AAS) through Microsoft Fabric	http://datasharkx.wordpress.com/2023/10/31/copy-data-from-azure-analysis-service-aas-through-microsoft-fabric/
Implementing DATEDIFF function in Data Factory / Synapse via Pipeline Expressions	http://datasharkx.wordpress.com/2023/09/25/implementing-datediff-function-in-data-factory-synapse-via-pipeline-expressions/
Automated Way to Identify the Dependencies on a Dataset in an Azure Data Factory	http://datasharkx.wordpress.com/2022/12/18/automated-way-to-identify-the-dependencies-on-a-dataset-in-an-azure-data-factory/
Identifying the Count of Activities within a Pipeline in Synapse	http://datasharkx.wordpress.com/2022/11/12/identifying-the-count-of-activities-within-a-pipeline-in-synapse/
Merging Arrays within Synapse / Azure Data Factory Pipeline	http://datasharkx.wordpress.com/2023/01/30/merging-arrays-within-synapse-azure-data-factory-pipeline/
Reversing an Array in Azure Data Factory / Synapse Pipeline via Regular Expressions	http://datasharkx.wordpress.com/2023/02/27/reversing-an-array-in-azure-data-factory-synapse-pipeline-via-regular-expressions/
Replace Nth Index Item of an Array via Azure Data Factory / Synapse Pipeline through Regular Expressions	http://datasharkx.wordpress.com/2023/02/23/replace-nth-index-item-of-an-array-via-azure-data-factory-synapse-pipeline-through-regular-expressions/
Appending String to every Element of an Array without using Iteration Activities via Synapse / Data Factory Pipeline	http://datasharkx.wordpress.com/2023/02/05/append-string-to-every-element-of-an-array-without-using-iteration-activities-via-synapse-data-factory-pipeline/
Automated Way to Identify the Dependencies on a Trigger in Synapse	http://datasharkx.wordpress.com/2022/12/22/automated-way-to-identify-the-dependencies-on-a-trigger-in-synapse/
Automated Way to Identify the Dependencies on an Integration Runtime in an Azure Data Factory	http://datasharkx.wordpress.com/2022/12/21/automated-way-to-identify-the-dependencies-on-an-integration-runtime-in-an-azure-data-factory/
Moving Delta / Missing Files between Source and Sink Via Azure Data Factory / Synapse Pipeline	http://datasharkx.wordpress.com/2023/04/18/moving-delta-missing-files-between-source-and-sink-via-azure-data-factory-synapse-pipeline/
Automated Way to Identify the Dependencies on a Trigger in an Azure Data Factory	http://datasharkx.wordpress.com/2022/12/21/automated-way-to-identify-the-dependencies-on-a-trigger-in-an-azure-data-factory/
Listing Unique records within an Array in Azure Data Factory	http://datasharkx.wordpress.com/2022/07/24/listing-unique-records-within-an-array-in-azure-data-factory/
Automated Way to Identify the Dependencies on an Integration Runtime in Synapse	http://datasharkx.wordpress.com/2023/01/01/automated-way-to-identify-the-dependencies-on-an-integration-runtime-in-synapse/
Granting Access to Similar Name Applications in Azure SQL Database / Synapse	http://datasharkx.wordpress.com/2022/12/09/granting-access-to-similar-name-applications-in-azure-sql-database-synapse/
(unknown or deleted)	http://datasharkx.wordpress.com/?p=5

Automated Way to Identify the Dependencies on a Dataflow / Power Query in an Azure Data Factory	http://datasharkx.wordpress.com/2022/12/18/automated-way-to-identify-the-dependencies-on-a-dataflow-power-query-in-an-azure-data-factory/
Automated Way to Identify the Dependencies on a Linked Service in Synapse	http://datasharkx.wordpress.com/2022/12/28/automated-way-to-identify-the-dependencies-on-a-linked-service-in-synapse/
Automated Way to Identify the Dependencies on a Dataflow in Synapse	http://datasharkx.wordpress.com/2022/12/30/automated-way-to-identify-the-dependencies-on-a-dataflow-in-synapse/
Automated Way to Identify the Dependencies on a Dataset in Synapse	http://datasharkx.wordpress.com/2023/01/02/automated-way-to-identify-the-dependencies-on-a-dataset-in-synapse/
Copy a Dataflow from workspace to workspace	http://datasharkx.wordpress.com/copy-a-dataflow-from-workspace-to-workspace/
